

# Peppermint Garland

*This is such an easy and colourful way to decorate the Christmas tree, and it makes a great replacement for candy canes! I used peppermints for a more traditional look, but you can use almost any lollies depending on what you like.*

## You'll need:

- Individually wrapped lollies
- A hot glue gun
- Hot glue sticks

## Instructions:

1. Add a small dot of hot glue to the right edge of one lolly.
2. Press the left edge of another lolly on top and hold it in place until set.
3. Repeat the above steps until you've used all the lollies or you've reached your desired length.
4. Drape it around the tree and enjoy!

**Note:** this is a kid-friendly craft with parent supervision, but make sure you don't put too much hot glue on the lollies as it can leak on to your fingertips if you're not careful.
